

Company Profile

Atom Options Computer L.L.C.

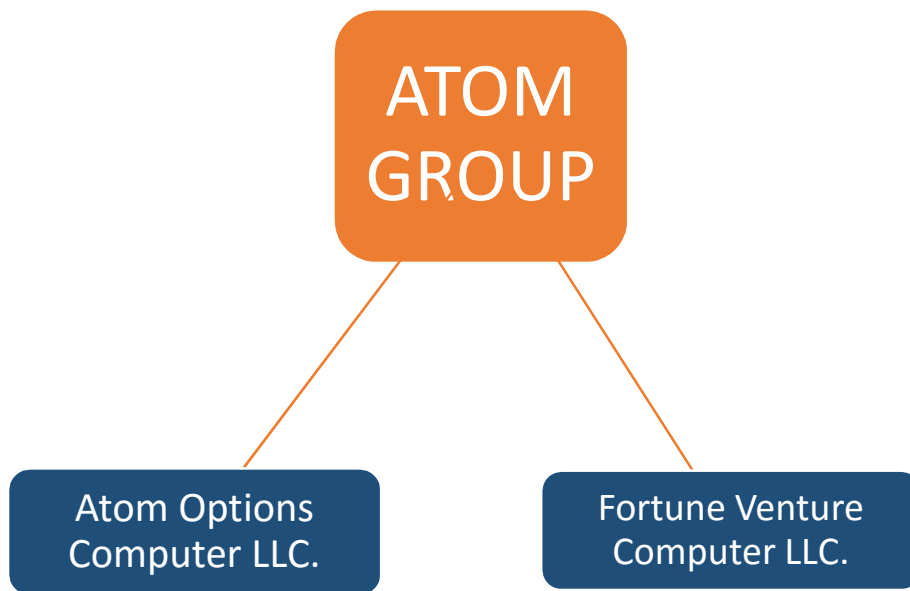

Atom Options Computer LLC. , a Limited Liability Company established in the UAE in the year 2004, is a young and enthusiastic company reflecting the youthfulness and energy of its entrepreneurs, having between them, more than 50+ Man-years of experience in the field of ICT within the UAE and GCC.

We at **Atom Options**, believe that the customers are our stake holders and are in the constant pursuit of providing our customers the best of products, solutions and services and delivering them in a cost-effective and time-bound manner.

Atom Options is an IT solution integrator offering end-to-end solutions and is based out of Dubai, in UAE. We are a group of companies having more than 10 years of experience in providing solution, implementation and supply of some of the well-known brands of the IT industry. With rich experience of managing business for world-class products, the team launched this company to support our esteemed customers in the region and worldwide.

We maintain extensive range of servers and options in stock at our facility in Jebel Ali Free Zone (Dubai, UAE). Dubai being a commercial hub for the world in terms of its central location, we are the preferred supplier of IT products for many of our Partners. We specialize in HP, Fujitsu, Cisco, Commvault, VMware, Array, Microsoft, APC, Symantec, Emerson and many more brands.

Atom Group has two companies under its umbrella – Fortune Venture LLC. (FVC) and Atom Options Computer LLC. .

Our expertise is classified under the following broad headlines:

IT Security Sales, Implementation, Consultancy and Support includes IT Security Design and implementation and Infrastructure Management Solution Architecting including DR. We also represents premium IT Security products like CISCO, Fortinet, Array networks, PulseSecure, PGP Symantec and Next Generation IPS & Firewall solution from SOURCEfire, now part of CISCO.

Infrastructure Solutions for your end to end infrastructure needs, from structured cabling to active components in your network like Core Switches, Routers, Wireless LAN, and Cloud based Infrastructure solutions from CISCO MERAKI and IP Telephony from CISCO and Avaya.

Systems Architecture Design and Implementation includes implementation of Microsoft Windows based Networks, Server & Storage consolidation, Design and Implementation of Exchange, Servers, Storage and Disk based backup appliances. Servers from leading server manufacturers like HP, CISCO, FUJITSU and LENOVO and storage from industry-leading vendors like HP, FUJITSU, NETAPP, NIMBLE and QUANTUM form part of our solution. Back-up software solutions from Commvault and Symantec, for physical and virtual environments.

Document Management and Imaging Solutions includes Enterprise Content Management (ECM) solutions from Gartner Magic Quadrant leaders, Onbase by Hyland Software that provides Document Management solutions and intelligent content management solutions including building workflow solutions and integration to leading ERP Solutions providers like SAP, Oracle and Microsoft Dynamics.

Atom Options is also the leaders in providing professional scanners for your scanning requirements from Fujitsu PFU.
